PASSENGERS ON INCOMING BOAT SEE BUT ONE CRUISER AT CAPES.

### NOT SEEN SINCE MORNING

Was Last Seen Heading for Lower Bay—Has Not Since Been Sighted.

**BULLETIN.**  
(Associated Press)  
Cape Henry, Aug. 2 — The Deutschland had not been sighted here up to 2:30 this afternoon, 31 hours after she left Baltimore.

Newport News, Aug. 2—Nothing has been heard from the Deutschland since 6:30 o'clock this morning, when she was off Tangier Sound, 75 miles above the Capes, heading for the Lower Bay.

### See Only One Warship.

Much surprise was occasioned here by the reports of passengers on an incoming coastwise steamer that only one allied warship was on guard off the Capes.

### Saw Two Masts.

Just outside the three-mile limit, where the channel is narrow, passengers said they saw an object low in the water. Two masts were visible, and the foreign cruiser was heading toward them. They looked like buoys with masts above and some thought they might be supporting a net.

### Expect Bremen Soon.

Paul Hilken, member of Eastern Forwarding company at Baltimore to day day admitted that preparations are being made to receive another submarine. As a guess he said the Bremen may arrive any time tomorrow.

Baltimore, Aug. 2—The Deutschland, German submarine freighter, and the first merchant under-sea boat to cross the Atlantic, bade farewell to Baltimore Tuesday afternoon.

It was just 5:38 o'clock when the lines were thrown off and the craft was towed from its berth amid the cheers of a small crowd which had gathered to see the departure and the blasts of whistles from the water craft.

## RECRUITING PARTY IS NAMED

Captain Soper Names Militiamen Who Go To Capital.

Captain Soper this afternoon named the recruiting party of Co. G who will go to Springfield at 7:15 tomorrow morning to report to the Adjutant General. The recruiting party is composed of Sergeants John Kelly and Roy Smith, Corporals Howard Metzler and Wm. Adams and Privates Wm. Rose and Frank Adams.

## LOOKS LIKE BIG RAIL STRIKE

Count of Half the Vote Shows Preponderance For Strike.

(Associated Press)  
New York, Aug. 2—When half of the 400,000 ballots cast by members of the four brotherhoods voting on the question of calling a strike on 225 railroads of the United States had been counted today it was announced there is a preponderance in favor of a general strike.

## Lowden Makes Friends By Keeping Hands Out Of Mug

From Editorial of Morris Daily Herald—Col. Lowden, in spite of "cheering," in spite of misrepresentation, is making no attacks upon Col. Smith, Mr. Hull or even Mr. Deneen. He is telling the people what he thinks of the burdens of present conditions and that if they will nominate and elect him, he will devote four years of his life to their service and to their benefit. If the crowds who hear him are an indication he has the endorsement of the voters and their confidence. Those who know him know his word is good.

It appears to us other candidates will have less to regret if personal abuse is eliminated. The people are not convinced by it. Col. Lowden shows himself a much bigger man by his conduct and better fitted for gov-

## S.D.&E. WILL HAVE NEW STERLING OFFICE

TICKET BOOTH AND WAITING ROOM TO BE MOVED TO NEW PLACE.

## TERMINAL FOR INTERURBANS

Sterling, Aug. 2—The Illinois Northern Utilities company has rented the Patterson building on West 3rd street and B avenue and the office on Fourth street in the I. O. O. F. building will be discontinued. The transfer will be made some time during the month of August and not later than Sept. 1.

The moving into this building in Third street will commence a new era in Sterling regarding the I. N. U. The new building will be used not only for the office of Supt. Finck but it will contain all the present office and store room has and it will be headquarters for the Sterling, Dixon, & Eastern Railway Co. Tickets will be sold there. A man will be there every night until 10 o'clock, then he will be at the car barns the remainder of the night.

The waiting room will also be in this building. Special attention will be given to this part of the interurban passenger traffic and chairs and settees will probably be furnished the room. The ticket office has been in the Corner Drug store.

The freight department of the S. D. & E. which has been handled by S. S. Pauley on Ave. B, will be handled by the office itself, by the storekeeper of the local office. All freight will be received here.

The building has been leased for 3 term of years and Mr. Patterson already started remodeling the structure into ways which will be the most convenient to the company.

### POLICE SHIFTS.

The monthly change in the hours of the policemen went into effect at noon Tuesday. Officer Lightner goes on days, Officer Whetstone has the down town night beat and Officer Winters is now in Dementown during the nights.

## Special Train East After Concert At Assembly Friday

Nor. Western Will Run Passenger Train From Dixon To DeKalb

This afternoon arrangements were completed with the North Western Railway company for a special train from Dixon to DeKalb after the Schumann-Heink concert at the Assembly Friday evening. There has been an exceptional demand for tickets from cities and villages east of here and as a result the special train has been secured to take them home after the concert. It will leave Dixon at 11 o'clock.

Especially from DeKalb and Rochelle will the attendance be large on Friday evening. In DeKalb Mrs. Toeneges, wife of the director of the Third Regiment band, is getting up a large party and in Rochelle several prominent musicians have taken the arrangements in hand.

## SOLDIERS-SAILORS TO MEET HERE SOON

REUNION OF THE NORTHWESTERN ASSOCIATION ON AUGUST 15-16.

The officers of the Army of the Potomac have issued the following notice of the annual reunion of the association to be held at the Assembly grounds here Tuesday and Wednesday, Aug. 15 and 16: Headquarters Army of the Potomac, Sterling, Ill., Aug. 1, 1916.

Comrade: We, the surviving Soldiers and Sailors who served in Civil War, no matter where we live now, will meet in annual reunion as an Association of Northwestern Illinois on the Assembly grounds at Dixon Tuesday and Wednesday, August 15th and 16th, 1916.

We of the Potomac branch will hold a special meeting on Wednesday at 9:00 a. m. in Bible Hall for business and story telling.

Write the secretary at once of your coming and the number of minute you wish to talk.

## PLANNED TO BLOW UP JOLIET PENITENTIARY

CLYDE STRATTON HAD 9 STICKS OF DYNAMITE IMBEDDED IN CELL WALL.

(Associated Press)  
Joliet, Aug. 2—That Clyde Stratton, who with two other convicts escaped from the penitentiary Saturday, planned to blow down the walls and escape during the confusion in case simpler methods failed, was indicated by the discovery of nine sticks of dynamite imbedded in the walls of his cell. The dynamite was connected by a wire to the electric fixtures in his cell. The explosion, it is believed, would have killed many convicts.

## WILSON STICKS TO POSITION

Says Woman's Suffrage is Matter for State Settlement.

(Associated Press)  
Washington, Aug. 2—President Wilson has not changed his position that woman's suffrage should be dealt with by states, according to an announcement from the White House this morning, brought forth by Chas. E. Hughes' statement yesterday favoring a Constitutional amendment.

## BREMEN IS DUE AUGUST 3

Agents Who Announced Coming of Deutschland Make Report.

New York, Aug. 2—The second German super-submarine merchant vessel, the Bremen, is due to reach American shores early Thursday morning, Aug. 3. This announcement was made by the same agents that announced the coming of the Deutschland.

According to their statements, after keeping constantly in touch with the German submarine trans-Atlantic service situation, the Bremen did not leave the port of Bremen until after the arrival of her sister submarine, the Deutschland, at Baltimore.

## BRINTON'S PETITION MAKES DUNNE MOVE

GOVERNOR WILL START CAMPAIGN EARLY IN EFFORT TO BEAT HIM.

### WILL BE HOT CAMPAIGN

Chicago Tribune—William B. Brinton of Dixon filed his petition at Springfield yesterday as a democratic candidate for the nomination for governor. He announced that he will make an immediate and sweeping campaign of the state and that he expected to be nominated.

Gov. Dunne's friends said that the only difference that the Brinton candidacy will make with the governor's plans will be that the governor will have to start a little earlier on his campaign through the state.

### May Get Sullivan Aid.

Expert politicians figured that Mr. Brinton is likely to get substantial support from the Sullivan regulars in Chicago. Brinton's downstate organization, said to have been in preparation for more than a year, is reported to be surprisingly extensive and active.

Other reports had it that possible opposition to the governor from the regulars in Chicago will depend upon the attitude of the governor toward the Harrison anti-Sullivan county ticket.

## FREIGHT BRAKEMAN WAS KILLED

Thomas Butler Met Death Under His Own Train Tuesday.

Thomas Butler, a former resident of Rock Falls, brakeman on North Western freight No. 116, was instantly killed by his train while switching at Maple Park Tuesday night. The remains will probably be taken to Rock Falls for burial. The deceased was married and made his home in Clinton, Iowa.

## CAVALRYMEN START SEARCH FOR BANDITS

TWO TROOPS OF CAVALRY, COMPANY OF INFANTRY, TAKE UP THE HUNT.

### SEARCH GULCHES AND CANYONS

After Gang of Mexicans Said to Have Crossed the Border On Monday.

(Associated Press)

El Paso, Aug. 2—Two troops of the Eighth cavalry and a company of infantry in motor trucks, and a motorcycle corps left here early today for Fort Hancock, where it is rumored a hundred Mexicans have crossed the line to avenge the deaths of Mexican cattle thieves shot down Monday in a fight with a detachment of the Eighth cavalry.

### Searching Gulches.

The soldiers were instructed to search in the gulches and canyons between Finley, Tex., and Fort Hancock, but the first three hours' search failed to disclose trace of the bandits, said in reports to Gen. Bell to number between 50 and 175.

### CARRANZISTAS KILLED.

## South American Excursion Was Enjoyable Says Mrs Andrus

Mrs. Leonard Andrus, formerly of Dixon and now of Portland, Ore., who recently completed a tour of South America with her niece, Miss Lucia Morris, granddaughter of Mrs. J. H. Morris of this city, will leave Tuesday for Portland, where she will remain until December. At that time she will be joined by Miss Morris, who is visiting her sister, Mrs. Margaret Morgan, of Shields, Pa., and together they will sail for New Zealand, arriving there to enjoy a season similar to June in the United States.

Mrs. Andrus, who has traveled very extensively, described her tour of South America, from which she landed at New York July 15, as the most enjoyable and interesting she ever experienced. She and her niece sailed from New York on the British S. S. Vauban February 26. They made stops at Havana and Panama, and also entered Guayaquil harbor, a very unusual stop, because of the prevalence of yellow fever and Bubonic plague. Guayaquil is a most beautiful place, Mrs. Andrus states. They stopped at five ports before reaching Port Callao, Peru, then sailed on to Molleneo. They left the boat there and went into Peru for two weeks, crossing Lake Titicaca, at an altitude of 12,500 feet, the highest navigable lake in the world. They stopped at LaPaz, Cuzco, and four other cities before reaching Valparaiso, Chili. They also visited Santiago and Mendoza, Argentina, crossed the Andes and went to Buenos Aires, where they enjoyed a side trip to Montevideo. Six weeks spent in Rio de Janeiro were most enjoyable. Mrs. Andrus described that city as the most beautiful she had seen in any of her excursions. On their return they stopped at the Barbadoes, and steamed into New York at night with all lights extinguished. 1,000 passengers, of whom 187 were first cabin patrons, made the excursion.

THE beauty of Ivory Soap is that it is just as satisfactory for a thousand and one other things as for the bath and toilet.

When you buy it you not only have a mild, pure, white floating soap for personal use in bathroom and nursery but you have a safe, harmless, effective soap for fine laundry work, for delicate articles about the house, for table ware, for silver, for everything that you do not care to trust to ordinary cleansing methods.

In short, you can use Ivory Soap on anything that water itself will not harm.

## Woman's Column

Something Good To Eat

We will give each day in this column a cooking recipe or a household hint or two. The recipes have been furnished by Dixon women and each one has been tested and found good.

### Frozen Peach Pudding

Three cups of milk; one cup macarons, mashed fine; one cup sugar, two cups crushed peaches; pinch salt; two tablespoonfuls cornstarch. Heat milk, then add cornstarch, which has been mixed with a little cold milk; cook ten minutes. When cold add sugar and salt, macaroon crumbs, and crushed peaches; freeze.

A CHARMING DRESS IN EMPIRE STYLE

1741—With Sleeve in Either of Two Lengths

Figured chaille and "Val" lace are here portrayed. The bodice belt is of white messaline. Dimity, lawn, checked or striped taffeta, batiste, embroidered crepe or voile; all these are fine for the development of this model. The yoke shown on the small views may be omitted. The skirt is full and gathered under the belt to the waist at Empire waistline. The pattern is cut in 4 sizes: 4, 6, 8 and 10 years. It requires 3 1/2 yards of 36 inch material for an 8 year size.

A pattern of this illustration mailed to any address on receipt of 10 cents in silver or stamps.

### Ladies' Circle of Moose

Mrs. Louis Atkins will entertain the members of the Ladies' Circle of Moose Thursday afternoon from two to five o'clock at her home, 319 W. Fellows street. All the members are cordially invited to attend.

### For Baby's Lord

The daintiest of luncheons, all in pink and white, baby's own colors, was given last evening in honor of the first birthday anniversary of Rodney Nolan Lord, the little son of Mr. and Mrs. Nolan Lord, by his grandparents, Mr. and Mrs. Fred Lord of Palmyra.

This was the culmination of a very happy day for Rodney Nolan, which started in the morning with all the mysteries of sitting for a picture.

The luncheon table was a dainty sight with its pink and white decorations. As a centerpiece a large birthday cake, decorated in pink and candies, with baby's name and age written on it, and one pink candle in the center, caused Sir Baby to crow with delight, but when he discovered that, instead of waiting until the last as small folks often have to do, he was helped first to everything, and best of all, to a beautiful slice of cake, and had the pleasure of blowing out the candle all to himself, his joy knew no bounds. He thoroughly entered into the spirit of the evening.

It is a happy baby that can have all his grandparents around him. Those at the luncheon included the grandparents on both sides: Mr. and Mrs. Rodney Ayres, and the hosts of the evening, Mr. and Mrs. Fred Lord. Of course, his mother and father was there, and, there, too, were his only aunt and uncle, Miss Lois Lord and Arlene Lord. Nine in all were seated at the luncheon table.

Today Master Baby still has some delightful reminders of the happy time in the beautiful gifts presented him, one from each one present at the luncheon, besides numerous others from many friends.

### Guests at Ross Home

Mr. and Mrs. Charles Ross of Lee Center and Mr. and Mrs. Frank

Myrdal of Amboy are guests at the W. F. Ross home in Steinmann's addition and are attending the Assembly.

### Yeager-Gennett Nuptials

At high noon today at St. Patrick's Catholic church, occurred the wedding of Miss Mignonette Gennett, daughter of Mr. and Mrs. Frank Gennett of this city, to Frederick Yeager of Booneville, Missouri, in the presence of the relatives and a few intimate friends. Rev. Fr. Michael Foley officiated at the nuptial mass.

The ceremony was a beautiful but simple one, the bride having the one attendant, Miss Arvilla Richardson, of Chicago. Mr. Prescott Clark of this city, brother-in-law of the bride, acted as best man.

The bride, of French extraction, petite and dark eyed, was a picture of loveliness in a gown of pussy willow taffeta. The bodice was cut becomingly low in the neck and the skirt was made with over-drape of the same material. A picture hat of pink tulle and low shoes of pink, with a great bunch of white roses completed the picture. The bridesmaid wore white silk net and lace over silk and a picture hat and low shoes of a pale blue. She also carried roses.

The wedding party and the guests left the church for the Nachusa tavern, where an eight course luncheon had been ordered. The luncheon table was very prettily decorated in pink rosebuds and ferns and a hand some wedding cake. Pink rose favors were at each place. Sixteen were served. Mrs. Will H. Smith of this city played a number of beautiful piano selections before luncheon was served.

The guests at the wedding and the dinner, besides the members of the bridal party, included: Mr. and Mrs. Frank Gennett, the bride's parents; Mrs. Prescott Clark, an aunt; the bride's uncle and aunt, Mr. and Mrs. Howard Etheridge; her cousins, Mr. and Mrs. Frank Barcus of Rock Falls; Miss Helen Daniels, a niece; Mrs. Bennett, an aunt; Mrs. Will H. Smith; and Miss Bohan and Miss Frank Gilbert of Booneville, Mo.

Mr. and Mrs. Yeager leave this afternoon on the 4:21 train for Chicago where they will take a lake boat for the Thousand Islands, where they will spend the week. Traveling, the bride will wear a grey and white suit and white Panama hat. They expect to return Sunday to be the guests of the bride's parents and Mr. and Mrs. Prescott Clark for a week. Miss Bohan and Miss Gilbert will accompany them as far as Chicago. Mr. and Mrs. Prescott Clark will entertain the remainder of the company to night at their home in North Dixon. The new home will be made in Booneville where Mr. Yeager is in the clothing business.

### Guest of Mrs. Moore

Mrs. Anna C. Ream of Chicago is visiting her friend, Mrs. Anna C. Moore of West Third street, and will remain for an indefinite period. While there she will attend the Assembly.

### Entertained at Dinner

Mrs. John Guptill of Sixth street entertained at Sunday dinner Mr. and Mrs. John Paddock and son, Mr. and Mrs. Frank Reorick of Peoria, Mrs. Jones, a sister from Monmouth, Mr. and Mrs. V. A. Burdick and daughter of Freeport. After dinner the above party motored to Eldena and spent the afternoon at the guests of Mrs. Guptill's sister, Mrs. Edward Howard.

### Visited Parents

Mr. and Mrs. William Manon and son Fred of Philadelphia, who have been visiting Mrs. Mahon's parents, Mr. and Mrs. A. M. Ort, left for their home in Philadelphia today, stopping at Niagara Falls on the way. Mr. Mahon is a contractor and has this season finished forty-three residences and has eleven under construction.

### To Tour Yellowstone

Misses Mary Staples and Mary Todd will leave soon for Yellowstone Park.

### GOVERNMENT BEFORE PARENT

U. S. Has First Say Concerning Minor Enlisted in National Guard.

Washington, Aug. 2.—A statement was issued by the war department pointing out that a recent decision of Federal Judge Waddill at Norfolk, Va., holding that the government's interest in a youth under eighteen years of age who enlisted in the District of Columbia national guard was superior to that of the parent, sustains an opinion on that point rendered by the judge advocate general.

"The ground of the decision," the statement says, "was that a parent or guardian of a minor has no natural or common law right of custody or control that can be asserted against the paramount right of the nation to the services of the minor under the enlistment."

### OUR NUTTY NOVELETTE

IT'S A WISE CHILD.  
February was no more, and the raw March winds marched shrilly through the tree tops. The figure of a beautiful woman might have been seen toiling through the bleak, deserted streets, but wasn't. It was too dark. Suddenly through the impenetrable darkness there penetrated the radiance of a well-lighted, palatial mansion. The silvery music of childish laughter floated into the chill air through the windows, which were closed. The woman, still beautiful, shrank back into the darkness.

"And to think," she muttered brokenly, "that I was once their mother!"

With a bundle of bounds she bounded up the front steps. She opened the door with a key, and in another moment she was in the parlor.

Five lovely children stared at the beautiful woman in amazement.

"Children!"

The word burst from her lips, but remained intact.

"Mother!"

The word, uttered after a long pause, in five childish voices, seemed to gather a five-fold meaning.

It was as she feared. They had not recognized her in her new cubist gown.

### Railroad Up Gray's Peak

A new railroad, planned to scale Grays Peak, near Dillon, Col., will attain a height of at least 300 feet greater than the road which climbs Pikes Peak. The new road will tap an important mining area, the Georgetown district, and will be a feeder for both the Colorado and Southern and the Denver and Rio Grande railroads.

### A Remarkable Career.

A remarkable veteran soldier in England is Lord Chelmsford, now 77 years old, but appearing like a man in the 50s. It is 60 years since he entered the army, and he is among the now thinned ranks of those who served before Sebastopol. He was in the Mutiny, and later experiences were his in the Abyssinian, in the Kaffir and then in the Zulu wars.

### Lily of the Valley Poisonous.

In spite of its beauty, the lily of the valley is denounced by scientists on the ground that both the stalks and the flowers contain a poison. It is risky to put the stalks into one's mouth, as if the sap happens to get into even the thinnest crack in the lips it may produce swelling, often accompanied by pain.

### Bank for Workingmen.

To encourage working people to establish homes of their own, Norway has founded a bank for working men. It lends money at 3 1/2 and 4 per cent, and gives the borrower 42 years in which to pay the loan. The total cost of the house must not exceed £100, and the area of land must not be more than five acres.

### The Kaiser an Early Riser.

The Emperor of Germany usually rises about 5 o'clock and generally to be found in his workroom at 6 o'clock. First there is served to him a cup of tea or bouillon and a sandwich. Then, lighting a cigar, he reads over such clippings from newspapers and magazines published all over the world as are deemed worthy of his attention.

### BERLIN ISSUES SHIP REPORT

Statement Says Allies Have Lost 49  
Warships During Hostilities.

Berlin, Aug. 2.—Forty-nine warships,  
with an aggregate of 562,000 tons,  
have been lost by the entente allies  
during the war, according to statis-  
tics given out by the German admiralty,  
the figures being brought up to  
June 30 last. Of this number, says the  
statement, the British lost forty ves-  
sels, with a tonnage of 485,000.

The losses of the Teutonic allies  
are given in the statement as thirty  
warships of 162,000 tons in the aggre-  
gate.

The British losses are given, com-  
prising eleven battle-ships, seventeen  
armored cruisers and twelve cruisers.  
Merchant ships sunk by the Teutonic  
allies, according to the statement,  
number a total of 1,203 with an aggre-  
gate tonnage of 2,000,574.

Counting Strike Vote.  
New York, Aug. 2.—Representatives  
of the railroad brotherhoods met in

## Daddy's Bedtime

What an Ugly  
Story— Duckling Met  
In a Marsh.

[Adapted from Hans Christian Andersen.]

WHEN the children came and perched on the arms of daddy's chair  
he told them this story: "All the creatures that lived in the duck  
yard treated an ugly duckling so badly that one day he flew  
away from home. Finally he came to a big marsh where wild  
ducks lived. He was so tired from flying and so unhappy from loneliness that  
he stayed in the marsh all night. In the morning the wild ducks flew up to  
take a look at their new comrade. 'What sort of a creature are you?' they  
asked. The duckling turned from side to side and greeted them as well as he  
could. 'You are frightfully ugly,' said the wild ducks, 'but that does not mat-  
ter to us, so long as you do not marry into our family.' Poor duckling! He  
had no thought of marrying. All he wanted was to lie there and rest.  
"So he stayed there two days. Then two wild geese came who were  
not out of their shells long, and so were rather pert. 'I say, comrade,' they  
told the poor duckling, 'you are so ugly that we have taken quite a fancy to  
you. Join us and be a bird of passage. There is another marsh close by and  
some charming wild geese there—all sweet young ladies who can say 'honk'.  
You are ugly enough to make your fortune among them!'  
"Just at that moment bang! bang! was heard up over their heads. Both  
the wild geese fell dead among the reeds, and the water turned red. Bang!  
bang! went the guns, and whole flocks of wild geese flew up from the rushes,  
and shot peppered among them again. There was a grand shooting party, and  
sportsmen lay hidden in the marsh. Some even sat on the branches of trees  
that overhung the water. Blue smoke rose like clouds over the pool.  
"The water dogs wandered about in the marsh. Splash, splash! the reeds  
and rushes bent under their heavy feet. It was all terribly frightful for the  
poor duckling. He twisted his head around to get it under his wing, and just  
at this moment a horrid big dog appeared close beside him. His red tongue  
hung right out of his mouth, and his eyes glared wickedly. He opened his  
big mouth and showed his sharp teeth to the duckling and splash—went on.  
"Oh, thank heaven!" thought the poor duckling. "I am so ugly that even  
a dog won't bite me!"  
"So he lay there in the marsh while shot whistled among the reeds and  
bang after bang rent the air. Late in the day it became quiet again, but even  
then the poor duckling did not dare to get up. He waited several hours longer,  
and then he got up and hurried away from the marsh as fast as he possibly  
could," daddy finished, with a hug for Jack and a kiss for Evelyn.

## Gossip Of The Campers

Campers have been furnished with  
ice water. All are thankful.

Nearly all the campers are enter-  
taining guests.

Miss Helen Parker was a visitor  
at camp, "Tumble Inn" yesterday  
and last night. Mrs. Harvey Sennet  
and Mrs. Fred Platten were also vis-  
itors yesterday at this camp.

The camp, "Seldom Inn" occupied  
by Chicago young ladies, is one of  
the most popular camps on the  
grounds.

All the young men who have au-  
toes are in demand. It seems that  
the girls would rather drive along  
the corn fields than go up the river.

Twenty-three college girls are  
here. The most of them are stopping  
at the Assembly hotel. They are  
alive, happy, cheerful. They are each  
making a hit with the young men of  
the camp and before they make  
their departure they will get plenty  
of enjoyment. These girls can sing  
well and will be the star entertain-  
ers for several days.

Robbins & Poole have a laundry  
agency on the grounds and business  
is exceedingly good.

Landlord Young is doing a good  
business.

The boys and girls are drilling  
daily and are deeply interested in

their work. Mr. and Mrs. Holsin-  
ger are doing a good work.

Don't forget that Mrs. Louella O.  
Parsons will appear Monday even-  
ing and not Monday afternoon. Her  
program will include moving pic-  
tures, and that's why the change was  
made.

The Dixon Chamber of Commerce  
Band will play another concert next  
Sunday afternoon at 4 o'clock. And  
again on Monday evening at 7 o'clock.  
And again Wednesday evening,  
August 9, at 7 o'clock.

On Friday, August 11th the Dixon  
Moose Band will play a full concert  
at 8:30 o'clock in the evening. The  
Moose Orchestra will play again at  
7:45, that evening. Director Smith  
is now arranging two splendid pro-  
grams.

The Chamber of Commerce Band  
will play a concert the last Sunday,  
and the closing day of the Assembly  
at 4 o'clock. Director Holdridge  
will give a program of new music.

Sunday, August 13th, all children  
under fifteen years old will be admit-  
ted free.

Today was recognition day at the  
Assembly. Mrs. F. M. Yocum of  
West Brooklyn was the lone gradu-  
ate. The address was delivered by  
President Hoover of Carthage Col-  
lege.

## THE MYSTERIOUS FOE

A Series of Stories About Some Illinois Men, Women, and Children.  
Issued by the Illinois State Association for the Prevention of Tuberculosis

### FIFTH EPISODE.

Life has taken a peculiar slant to  
Irvin. The future doesn't look so rosy as  
it did a few months ago. But the  
present has become wonderfully pre-  
cious.

About three years ago, Irvin en-  
tered college. He was chuck full of  
the commodity called "pep." His life  
in grade and high schools had been  
that of the typical American boy.

He was ambitious. He wanted to  
"make his mark in the world"  
and to further prepare him-  
self for the job, he felt  
that he needed a col-  
lege education.

But Irvin's parents  
were poor and could  
promise him very lit-  
tle assistance. So,  
with a cheerful grin,  
he buckled to the task of  
paying his way through the  
state university.

In his freshman year, he played one  
of the tackle positions on his class  
eleven. The following year he was  
a first "sub" on the varsity.

He was popular with his classmates  
and was elected to one of the most  
exclusive "frats." He was passably  
good looking and could have taken a  
prominent part in the social life of  
the university but he had work to do  
and declined practically all of the in-  
vitations. You mustn't draw from this,

though, that Irvin was a "goody,  
goody" boy. He wasn't. But he was  
as clean, and healthy and happy and  
talented as you would want your boy  
to be.

While he was playing "varsity  
sub" Irvin confidently expected to  
make the first team in his third year.  
But it puzzled him to find that he  
couldn't get in condition.

Something had gone wrong with his  
wind and his muscles refused to  
"stand the gaff" of the early  
training season.

He began to lose  
weight and to find that  
his brain didn't work  
as smoothly as it used  
to.

Then he learned  
that he had become in-  
fected with tuberculosis  
and that he had "got"  
the disease from somebody  
else who had it.

Someone who had tuberculosis  
had coughed or sneezed or spit  
where the germs could be car-  
ried to Irvin's lungs. Probably  
whoever it was didn't realize what  
a criminally careless thing it  
was to do, but they did it any-  
way.

Sanatorium treatment might save  
Irvin but his funds are low and he  
can't afford to pay for treatment in a  
private institution.

## FRENCH TOOK HEA FORTIFICATION TODAY

ANNOUNCE CAPTURE OF POWER-  
FUL POSITION NEAR  
MANACU FARM.

### TWENTY-THREE AERIAL FIGHTS

Many Engagements Between The Air  
Craft Over German Lines  
In West.

(Associated Press)

Paris announced this morning that  
a powerfully fortified German work-  
ing Sem Wood and Manacu farm  
had been taken by the French. On the  
Fortress Verdun there were vio-  
lent engagements throughout the  
night.

### Germans Gained Ground.

The statement also says that with  
the aid of asphyxiating gas the Ger-  
mans gained a little ground in Vaux-  
Le-Chapitre and Chenois.

Thirty-three aerial encounters took  
place yesterday over the enemy lines  
on the Somme front, the statement  
says. One German aeroplane fell in  
flames, while 14 other German ma-  
chines were seriously damaged and  
compelled to land or dive within the  
enemy's lines.

### British Continue Gains.

London announced today that the  
British had made further gains east  
of Poziers.

### Austrians Defeated.

Rome announces the Austrians met  
defeat, with heavy losses, in Astico  
Valley Monday. Italian aeroplanes  
dropped four tons of explosives on  
Whitehead torpedo works at Fiume,  
Hungary, damaging the plant badly.

### Germans Take Hill.

Berlin said today that in the Ver-  
dun region the Germans had captured  
a hill northeast of Fortville.

London, Aug. 2.—Russian progress  
on a twenty-eight-mile front on the  
west bank of the Stokhod river, men-  
acing the German base of Kovel, and  
similar progress southwest of Brody  
where the Slavs are now within forty  
miles of Lemberg is so seriously menac-  
ing both these vital Teutonic bases  
that their evacuation has already be-  
gun. This information is contained  
in dispatches received by way of  
Rome and in unofficial reports from  
Petrograd.

According to these reports the Ger-  
mans are hastily moving vast quanti-  
ties of war supplies, heavy guns and  
munitions from Kovel while the Aus-  
trians are working desperately to save  
their vast stores in the Galician cap-  
ital. The same dispatches declare that  
the smaller base of Vladimir Volyn-  
ski, one of the most important ad-  
vance strongholds of the German line  
in this region, has already been clear-  
ed in preparation for its final evacua-  
tion.

### Austrians Capture 18,000.

While Vienna claims the capture of  
18,000 prisoners in the month of July  
and insists the Russian drive has been  
checked, Petrograd announces con-  
tinued advances. Berlin, on the other  
hand, reports the defeat of the Czar's  
troops at practically all points and  
declares the Russians are exhausting  
themselves in fruitless attacks. The  
continued successes of the Russians  
for two months past, however, casts  
doubt upon these reports.

Military experts, analyzing the sit-  
uation from the latest official reports,  
point out that the Austro-German  
forces defending the Kovel-Lemberg  
fronts are in grave danger of being  
caught in a trap from which they will  
be unable to extricate themselves. The  
Austrians, they assert, have waited  
too long to carry out an effective re-  
treat and when their withdrawal from  
the points now being defended be-  
gins the Russians will be able to turn  
the retreat movement into a rout.

### Trap Is Closing.

This will leave, according to these  
experts, the right flank of General  
von Linsingen almost unprotected and  
his entire army may be bottled up.

The general opinion in Russian of-  
ficialdom is that Lemberg and Kovel  
will be evacuated, though desperate  
fighting is expected before both these  
important points.

With Lemberg and Kovel in their  
hands the Russians believe that Field  
Marshal von Hindenburg will be com-  
pelled to abandon the Riga front and  
that Prince Leopold of Bavaria, who  
is north of the Pripiet marshes, will  
have to quit his advanced lines.

### Claims Allies Losses 350,000.

Berlin, Aug. 2.—"According to a  
cautious valuation," says a statement  
issued by the German army headquar-  
ters, "the total Anglo-French losses  
in the Somme offensive will reach  
350,000 officers and men."

"On a twenty-eight-kilometer (sev-  
enteen miles) front," the statement  
adds, "the enemy advanced four kilo-  
meters (two and one-half miles) on  
the average, but after his experiences  
of July 20, 22, 24 and 26 he will not  
affirm that the enemy line has even  
been shaken at any place."

"This 'success' cost the British at  
least 230,000 men, according to a very  
cautious valuation. For the French  
losses there are no accurate founda-  
tions, but since the French had to do  
the biggest part of the job, and even  
taking into consideration their superior  
fighting skill, the total enemy losses  
will reach 350,000. The German losses  
cannot be compared to these figures."

surrounding, all of which seemed to  
mean godspeed and good luck.

### Painted Sea Green.

The little craft was painted a sea  
green. This was done in the last few  
days. In irregular lines across the  
whaleback were lines of dirty white  
and when the boat reached the spot  
where the waters are deep and green  
it will be impossible to distinguish  
her, once she submerges.

### When a few days ago the craft

was painted a steel gray.

### Diver's Crew Happy.

A smile illuminated the faces of the  
crew and they waved their hats, and  
those who did not have hats waved  
their handkerchiefs in response to the  
cheers of those who wished them bon  
voyage.

The crew of the steamship Neckar,  
interned at this port, which has been  
standing beside the Deutschland  
guarding her from curiosity seekers  
and those who might possibly have  
had evil design, was lined along the  
deck of the big ship looking down up-  
on the little one as she left. Their  
faces, too, beamed with happiness and  
they were exuberant in their wishes  
of Godspeed.

The farewells were shouted in Ger-  
man. The Neckar gave another dem-  
onstration of best wishes in hoisting  
signal flags which in the internation-  
al code meant, "home bound, good  
luck."

### Diver Begins Voyage.

A few minutes before 5 o'clock the  
small power boat Elco made her way  
to the end of the slip. The revenue  
cutter came alongside the tug Thomas  
P. Timmins and the police boat also  
hacked in beside the custom-house  
boat. There were conferences be-  
tween the police officials, officers in  
the United States custom service and  
Captain Konig relating to the convey  
of the submarine.

At precisely 5:30 the Lannan pul-  
led out of the slip, the Elco backed in  
and tied close to the Deutschland,  
the custom-house boat pulled away and  
finally the Timmins backed in and  
made fast her lines. Then came the  
handshaking and the parting words  
of farewell from the crew of the Deut-  
schland and the crew of the Neckar and  
the official of the Eastern Forwarding  
company who were on the pier. Eight  
minutes later the Deutschland was  
being conveyed on her trip to Bremen.

fiancee stood at his side, William Tay-  
lor of Beckemeyer, Ill., fell into  
White's Ford, a mile south of Car-  
lyle, and was drowned. He was to  
have been married in August.

Taylor was a member of a picnic  
party that motored from Beckemeyer.  
He had just emerged from a swim in  
the river and was lying on the bank,  
fully dressed, and playing with chil-  
dren in the party. In his antics for  
the amusement of the youngsters he  
rolled into the water and disappeared.  
Miss Augusta Hardt of Beckemeyer,  
his fiancee, is prostrated. One of her  
sisters died a month ago.

## CELEBRATES 102D BIRTHDAY

Jeremiah Sullivan, Shelbyville, Ill.,  
Has Used Tobacco from Boyhood.

Bloomington, Ill., Aug. 2.—Jeremiah  
Sullivan of Shelbyville, said to be the  
oldest man in the state, celebrated his  
102d birthday.

He has used tobacco from boyhood  
and has never noted any ill effects.  
He helped to construct the first rail-  
road in central Illinois.

## HUGHES IN FAVOR OF NATIONAL SUFFRAGE

Presidential Candidate Would  
Force Measure on States.

New York, Aug. 2.—Charles E.  
Hughes has declared for an amend-  
ment to the federal constitution pro-  
viding for woman suffrage. Mr.  
Hughes's views on the subject were  
made public in a letter he has written  
to Senator Sutherland of Utah.

Mr. Hughes' letter was in reply to a  
telegram received from the senator  
asking the nominee to define his per-  
sonal position with regard to the  
equal suffrage federal amendment.

Washington, Aug. 2.—News of Mr.  
Hughes' announcement was received  
with unbounded enthusiasm at the  
headquarters of the Congressional  
Union for Woman Suffrage. State-  
ments were issued by Miss Maude  
Younger, Miss Lucy Burns and Mrs.  
Addy Scott Baker predicting that the  
women of the West would rally to the  
support of Mr. Hughes and contrast-  
ing his attitude with the insistence of  
President Wilson that suffrage is a  
state issue.

ILLINOIS IS WATCHING CHILD PLAGUE CASES

Tab Kept on Children from State's Infected Spots.

Springfield, Ill., Aug. 2.—The prevalence of infantile paralysis in the vicinity of Cherry, Decatur and East St. Louis resulted in the issuing of an order by Dr. C. St. Clair Drake, secretary of the state board of health, that any persons accompanied by children leaving one of these communities must immediately report to the health authorities at their destination. In order that the children may be watched.

A report issued by the state board shows that 157 cases have been reported to the board during the month of July, of which seventy-eight were found to be true cases and sixteen are still under investigation. Six deaths have occurred, making the death rate 5 per cent as compared with 22 per cent in New York city.

Seventy-six per cent of the Illinois cases are among children under five years of age, and 56 per cent are males. There are eleven cases in the vicinity of Cherry, sixteen near East St. Louis and eighteen near Decatur.

The lawns in Harmon are all dried up; the grass is all dead, there being no moisture in the ground; all vegetation seems to be burned up in the garden, caused by the hot sun and the drought of the past few weeks; there will be no late potatoes if rain does not come soon.

Many horses are being overcome with the heat; some of them dying.

The average wheat crop will be small; from ten to fifteen bushels per acre; oats will be light, the dry hot weather kept it from filling out; some of the farmers say that it will be chaffy.

Corn is beginning to dry up; it is said that on the low ground as well as on the high, the lower leaves are dried.

If rain does not come soon the corn crop will be short. The blackberries are beginning to dry up on the stocks for want of moisture.

M. Watson of East Grove was a caller in Harmon Monday.

WOMAN GIVEN TWO DAYS

To Make Up Her Mind for Surgical Operation. She Refused; Cured by Lydia E. Pinkham's Vegetable Compound.

Philadelphia, Pa.—"One year ago I was very sick and I suffered with pains in my side and back until I nearly went crazy. I went to different doctors and they all said I had female trouble and would not get any relief until I would be operated on. I had suffered for four years before this time, but I kept getting worse the more medicine I took. Every month since I was a young girl I had suffered with cramps in my sides at periods and was never regular. I saw your advertisement in the newspaper and the picture of a woman who had been saved from an operation and this picture was impressed on my mind. The doctor had given me only two more days to make up my mind to I sent my husband to the drug store at once for a bottle of Lydia E. Pinkham's Vegetable Compound, and believe me, I only took four doses before I felt a change and when I had finished the third bottle I was cured and never felt better. I grant you the privilege to publish my letter and am only too glad to let other women know of my cure."—Mrs. THOS. MCGONIGAL, 5432 Hartville Street, Phila., Pa.

BRITISH LINER SINKS DIVER IN SEA FIGHT

Clodmoor Defends Self When Attacked in Mediterranean.

Montreal, Aug. 2.—The British steamer Clodmoor, just in port from Genoa, Italy, had a battle in the Mediterranean sea with a German submarine, her commander, Charles Hunter, reports. He believes he left the submarine in a sinking condition.

The Clodmoor plainly showed the marks of the submarine's gun fire. The steamship is armed with one gun for defensive purposes, and it was with this, her captain said, that he shelled the submarine when she was attacked, and so seriously damaged her that she drew off in apparently a sinking condition.

The battle lasted half an hour, according to Captain Hunter, but only one shell did serious damage to the Clodmoor. This pierced the vessel near the engineer's and mates' quarters. Several shells, however, dropped on the vessel's decks.

**PEACE-TALK DAY IN GERMANY**

Speech Delivered in 50 Cities Aroused Only Limited Discussion.

Berlin, Aug. 2.—Although the German national committee for honorable peace held meetings throughout Germany and the newspapers everywhere were filled with the speech delivered simultaneously and identically at all gatherings, there appeared to be but limited public discussion of the peace plans. The honorable peace movement was inaugurated by the Kaiser to unify the empire on Germany's peace terms. Fifty well-known German orators made the same speech in fifty German cities, emphasizing Germany's willingness for an honorable peace.

**THAT BACKACHE SPELLS DANGER**

Action Today May Save Dixon People Future Misery

A bad back isn't a bad thing if it serves as a warning of hidden kidney disorders. Kidney diseases are frightfully common today. We overdo too much. We don't give the kidneys a chance to rest up, and while a bad back, some urinary disorder or occasional dizzy spell or a persistent headache may be the only outward sign, the kidney trouble that is behind it all may be overlooked or neglected. Put your signs to use. Take them as warnings. Fight off kidney weakness. It takes only a slight kidney disorder to start a case of fatal Bright's disease, from which 100,000 people in the United States every year promptly treatment at first—that's all that's necessary to keep kidney weakness from turning into gravel, dropsy, gout heart trouble or Bright's. Use Doan's Kidney Pills—the oldest the most widely used, best recommended Kidney Pills. Forty thousand Americans recommend them publicly. Here's one Dixon case:

Mrs. J. Caritey, 511 Spruce street Dixon, says: "My back was so sore that I couldn't wait erect and morn'g it was hard for me to get out of bed. Various medicines didn't benefit me and when a friend recommended Doan's Kidney Pills, I got some at Leake Bros. Co.'s Drug store. After taking two boxes, my back was strengthened and I felt better."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Caritey had. Foster-Milburn Co., Props., Buffalo, N. Y.

### KEY MEN GET WAGE BOOST

Eight Per Cent Increase Given New  
York Central and Nickel Plate Men.

Chicago, Aug. 2.—Telegraphers em-  
ployed by the New York Central and  
Nickel Plate railroads, between Chi-  
cago and Buffalo, were officially granted  
an 8 per cent increase in pay in the  
award filed by the federal arbitra-  
tion board which last month heard ar-  
guments on the men's demands. The  
average pay will be increased from  
\$75 a month to about \$81 a month.

Between 4,000 and 5,000 men were  
affected by the increase on the lines  
between Chicago and Buffalo, known  
as the Chicago district. The railroads,  
according to the terms of the award,  
will increase the wages about \$6 a  
month, making an increase in expen-  
diture of \$360,000 annually.

### HUNG TAKES OATH OF OFFICE

Chinese Parliament Meets, Then Takes  
Indefinite Adjournment.

Peking, China, Aug. 2.—Parliament  
has been convened. It was attended by  
400 delegates, 100 more than was nec-  
essary for a quorum. President Li  
Yuan Hung, after taking the oath, ad-  
dressed the legislators, urging them to  
immediately take up nonpartisan  
and reconstructive work. The presi-  
dent, who was not accompanied by a  
police guard, wore European civilian  
attire.

After hearing the president's speech  
parliament adjourned indefinitely. It  
probably will be reconvened within  
two weeks if party differences can be  
reconciled.

## WOOD PULP MADE OF COTTON STALKS

EXPERIMENTERS FIND USE FOR  
BY-PRODUCT FORMERLY  
TERMED WASTE

Guncotton and Artificial Silk Also  
May Be Manufactured

It has been found that the stalks  
of the cotton plant which hitherto  
have been considered as absolutely  
worthless and even a source of trouble  
and expense to cotton growers can  
be converted into pulp which is a  
satisfactory substitute for wood pulp  
for many purposes. Because the fibers  
of the cotton stalk pulp are long and  
strong, paper made from it is stronger  
and tougher than paper made from or-  
dinary wood pulp.

Besides furnishing a valuable paper  
making material this pulp can be used  
in the manufacture of guncotton and  
artificial silk. For making the latter it  
is converted into a viscous liquid by  
treating it with an acid. The liquid is  
then spun into threads which can be  
woven into various kinds of fabrics.  
Artificial leather is also manufactured  
from this viscous liquid as are motion  
picture films and various chemicals.

The country is being rapidly de-  
nuded of its forests in order to supply  
the enormous demand for paper pulp.  
One of the big problems of conserva-  
tionists has been to find something  
that can be used to take the place of  
the pulp supply and prevent or at least delay  
the destruction of the available timber.

The use of cotton stalks appears to  
be an important step toward the solu-  
tion of the problem for enormous  
quantities of this material are availa-  
ble and a crop of it is produced every  
year as a by-product of the cotton in-  
dustry.

For every ton of cotton produced  
there are approximately five tons of  
stalks. Heretofore it has cost the  
growers an average of \$1 per ton mere-  
ly to have these useless stalks gather-  
ed and removed from the fields. It  
is estimated that some 75,000,000 tons  
of the stalks have been destroyed an-  
nually in the past few years. This  
would provide raw material for the  
manufacture of a large amount of pulp.

In addition to making a formerly use-  
less by-product commercially valuable,  
the cotton stalk pulp industry will aid  
cotton growers considerably by helping  
to eliminate the boll weevil. The usual  
practice has been to cut the stalks off  
at the top of the ground, leaving a  
stump in which the weevil finds both  
food and shelter until the coming of  
summer when it begins its depreda-  
tions on the new cotton crop.

The damage inflicted on the growing  
cotton by the weevil amounts to mil-  
lions of dollars annually. Since the  
roots of the plant are as valuable as  
any other part for making pulp, they  
will be pulled up, thus helping to elim-  
inate the weevil from infested fields.—

### CHUTES FOR RED HOT RIVETS

May Stop Hazardous Practice of Toss  
and Catch

One of the spectacular features  
of the work on the modern steel build-  
ing which always attracts the interest  
of the spectators is the adeptness of  
the man at the forge, whose job con-  
sists of heating the rivets to the point  
of redness and then tossing the glow-  
ing metal to a workman somewhere in  
the vicinity. He catches it and drives  
it into a hole awaiting its reception.  
In its heated condition the two ends  
are then clinched by a few blows of  
the hammer.

Occasionally these meteor like mis-  
siles go astray, and are likely to do  
some damage, unless they are looked  
after. It has been found that a better  
way of displacing the practice is by  
means of a chute, which is the method  
being followed in the construction of  
the new elevated railway in New York

### PLANS HOUSE NEW WAY

Plumber Puts in Pipes Before Building  
Is Framed

Waiting for the plumber to get out  
of the way is one of the most common  
causes of delay in house building, as  
carpenter work often has to stop while  
pipes are being run, or be done over  
after the plumber is through.

In California where many bungalows  
are built without basements, an enter-  
prising plumber has devised a way of  
avoiding these troubles and of getting  
his own end of the job done quickly.  
Working from the blueprints he erects  
all the piping before even the frame of  
the building is up, leaving nothing to  
do but place the fixtures, which can  
be done after the carpenters are all  
through.—Popular Mechanics.

### FURS CAUSE ANTHRAX?

Scientists Say Neckpieces are Dan-  
gerous to wear

Following an investigation, the de-  
partment of health of West Virginia  
declares that persons who wear neck  
furs are jeopardizing their health be-  
cause the arsenic used in the prepara-  
tion of these furs causes a rash to  
break out on the skin which is exceed-  
ingly difficult to cure.

Some also believe that furs are re-  
sponsible for a number of cases of  
anthrax, an animal disease that is  
now attacking man.—Pathfinder.

### PUBLIC WARNED AGAINST FALSE WEATHER PROPHETS

U. S. Weather Bureau Declares Sys-  
tem Advanced by Long Range  
Predictors is Unreliable

The chief of the United States  
Weather Bureau in a report sent out  
from Washington, D. C., states that  
in the opinion of the bureau a new sys-  
tem of long range weather forecasting,  
which has been widely discussed re-  
cently, has proved quite disappointing.  
The new system is said to be based on  
the spottedness of the sun and the rifts  
and shafts of solar radiation. In the  
opinion of the Weather Bureau it be-  
long to the same class with other  
methods of long range weather fore-  
casting based on lunar, planetary, mag-  
netic, and astrological considerations.  
None of these systems it is said, has  
any scientific value.

During the past few years the  
Weather Bureau has received full spec-  
ifications concerning all the essential  
details of this particular system. The  
alleged discovery is therefore, fully  
known to the weather bureau and has  
been carefully studied and examined  
by its scientific staff. Moreover, other  
scientists of international reputation  
now connected with the strongest in-  
stitutions of the world engaged in as-  
tronomical research, and conducting  
investigations into solar and terrestrial  
physics, have also passed upon these  
new theories. These authorities are  
in accord that the deductions and con-  
clusions drawn from the solar condi-  
tions on which the new system is based  
are unwarranted.

When the disk of the sun is minute-  
ly examined with powerful telescopes,  
or when it is photographed with the  
aid of the modern spectroheliograph  
the surface presents a characteristic  
spotted appearance which undergoes  
slight changes from day to day, and  
greater changes with longer intervals  
of time, depending upon the well  
known rotation of the sun upon its  
axis and the periodic recurrence of  
the sunspot maxima and minima.

These and certain well known related  
phenomena are being put forward  
as the basis of a new science which  
will make possible forecasts of the  
weather far in advance. That these  
features of solar activity, however, ac-  
tually should control and determine  
the daily changes and sequence of  
weather conditions in any definite or  
direct and consequential manner, is  
regarded by the government as quite  
impossible. Solar phenomena of the  
kind described do not have any direct  
influence upon the weather at any par-  
ticular time and place, and cannot be  
made the basis of any forecasts what-  
soever.

The alleged discovery is regarded  
as only one of a number of similar  
schemes which are continually being  
put forward. In some cases the ad-  
vocates of these schemes assert that  
they can forecast the weather for  
weeks or months in advance, and in  
others they state that they have found  
means of producing rain artificially,  
or preventing hail, and in other ways  
of interfering with and controlling at-  
mospheric phenomena.

These pretensions meet with a cer-  
tain credence because there are a num-  
ber of people who still cling to the  
ancient belief in the influence of the  
moon on the growth and development  
of crops, and to the idea that the  
weather conditions depend upon plan-  
etary and astrological combinations.

In consequence the Weather Bureau  
has been called upon from time to  
time to caution the general public  
against putting faith in these so-called  
discoveries.

The United States Weather Bureau  
itself is the authorized agency of the  
Government to collect meteorological  
observations and make and issue the  
weather forecasts and warnings. Ev-  
ery important nation of the world has  
a similar organization and all use es-  
sentially the same methods. All of  
these organizations condemn and dis-  
prove the methods and theories of  
those who assert that they are able  
to predict the weather for any con-  
siderable period in advance.

### LONG REST IMPROVES RAZOR

Knives Get Tired Like Any Other  
Tool, Say Barbers

Barbers maintain a razor gets tired  
and is improved after a rest. Any razor  
after constant use, while not exactly  
becoming dull, grows sluggish and fails  
to work as smoothly as when it has  
lain for a few weeks without work.

Constant use and continued sharpen-  
ing puts the molecules in a sluggish  
condition and it is impossible to get  
the same edge as when the steel has  
not been in use for some time. When  
the razor lies idle and the electric  
current is passing off at the edge the  
particles are being toned and temper-  
ed and the edge actually becomes more  
smooth and really sharper.

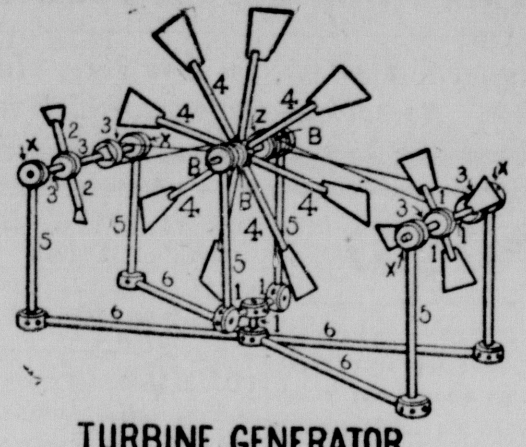

It is claimed a razor wrapped in rub-  
ber cloth and placed in a drawer away  
from damp will not be as benefit-  
ed by the rest as will a razor that is  
simply laid away rather carelessly  
without any isolation. It is the same  
if the razor is enclosed in a glass case,  
for the insulation prevents the elec-  
tric current from passing thru the  
metal.
